Jeff, Patty and Bob,

Below is a note from Dave Chambers with a paper on tailings dam failures. I believe TU sponsored this. I thought you all might want to look at it.

Subject: Long Term Risks of Tailings Dam Failure

Phil:

Attached is a paper that Bretwood Higman and I have written to describe some of the risks associated with tailings dams. I thought it might be of interest to EPA. I have uploaded a number of the references into a zip file. You can download the reference files at:
